## DETAILED ACTION

### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Stewart L. Gitler on September 6, 2005.

The application has been amended as follows:

Claim 1 (currently amended): An optical interference display panel, comprising:  
a substrate;

a protection structure, adhered to the substrate with an adhesive ; and an optical interference reflection structure , located between the substrate and the protection structure;

wherein the adhesive comprises spacers, and the spacers keep a predetermined distance between the protection structure and the substrate to prevent the protection structure from damaging the optical interference reflection structure.

Claim 8 (currently amended): An ~~A~~ A method for manufacturing an optical interference display panel, the method comprising:  
providing a substrate;

forming an optical interference reflection structure on the substrate; and  
adhering a protection structure to the substrate in order to position the optical  
interference reflection structure between the protection structure and the substrate;  
wherein the adhesive comprises spacers, and the spacers keep a predetermined  
distance between the protection structure and the substrate to prevent the protection  
structure from damaging the optical interference reflection structure.

***Allowable Subject Matter***

2. Claims 1 – 5, 7 – 13, and 15 are allowed.
3. The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in a combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 1 and 8 , for example, which include, an optical interference display panel comprises adhesive and adhesive comprises spacers and the spacers keep the protection structure and the substrate to prevent the protection structure for damaging the optical interference reflection structure .
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2873

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mohammed Hasan whose telephone number is (571) 272-2331. The examiner can normally be reached on M-TH, 7:00 AM to 5:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Georgia Epps can be reached on (571) 272- 2328. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
